

## Community Living Cambridge COVID-19 Update

**To:** All valued community members, supporters and champions of CLC

**From:** Cindy MacKay-Musso, Interim Executive Director

**Date:** March 26, 2020

---

Community Living Cambridge is diligently working to flatten the curve of COVID-19, and to prevent any spread within our agency. We are committed to keeping our participants and staff healthy while maintaining our high quality of support during this time. We have implemented a number of active screening protocols, and we are finalizing our strategy and safety plan in the event there is a confirmed case within our organization.

We are working with our sister agencies in the region, our partners at the Ministry of Children, Community, and Social Services, and Region of Waterloo Public Health to determine and implement best practices of prevention and care as we prepare for any potentiality.

In keeping with the directive from both the federal and provincial governments, our main office (166 Hesepler Road) and the Franklin Centre (466 Franklin Blvd) have been closed until April 6<sup>th</sup>. Our dedicated staff have been relocated to either support residentially or continue their administrative duties from home. We are continuing to monitor the situation and will communicate regularly via our website, and social media outlets, any agency or program related updates.

Should you require any support, have any questions, or have resources to offer, please call 519-623-7490 and leave a message or email [info@clcambidge.ca](mailto:info@clcambidge.ca). Phone and email messages are being checked and returned hourly. Thank you for your continued support of this agency and the people it supports.

I wish you all good health during this challenging period.

Cindy MacKay-Musso
